### FUND OBJECTIVE

To achieve long-term capital appreciation by offering an alternative to traditional equity investing through the use of a quantitative methodology that seeks to select alpha-generating stocks across all market capitalizations and styles.

### INVESTMENT STRATEGY

- The Fund systematically analyzes equities across all sectors and market capitalizations. A time-tested methodology utilized for over 30 years is implemented for security selection.
- Defined buy and sell methodologies ensure a replicable approach to seeking alpha in all market conditions. The Fund eliminates artificial market segmentations to concentrate on sectors, trends and exposures exhibiting characteristics of emerging growth.
- A portfolio is constructed that reflects these attributes while limiting exposure to areas of the market showing less desirable attributes.
- The Fund will maintain a concentrated portfolio of 20 to 30 stocks and will invest at least 80% of holdings in equity securities.

### INVESTMENT PROCESS

- Attempt to identify outperforming stocks from emerging industries utilizing a disciplined, quantitative methodology, which maintains investment process consistency.
- Select securities based on time-tested price momentum, relative strength and sector rotation factors.
- Use buy and sell triggers in attempt to stay invested in the stocks with the strongest characteristics.

The **Catalyst Dynamic Alpha Fund** seeks to offer an opportunistic, alpha-seeking investment approach utilizing a quantitative methodology based on time-tested investing factors, including relative strength and momentum.

### Primary Goals & Key Reasons To Invest

**Quantitative & Disciplined:** Price momentum, sector rotation and relative strength measures form the basis of security analysis. Stock and sector strength are ranked and monitored, and defined buy and sell triggers are utilized.

**Dynamic:** The Fund can invest across all stock styles and market capitalizations.

Investing in the Fund carries certain risks. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. The Fund is non-diversified and may invest a greater percentage of its assets in a particular issue and may own fewer securities than other mutual funds. The performance of the Fund may be subject to substantial short term changes. To the extent the Fund invests in the stocks of smaller-sized companies, the Fund may be subject to additional risks, including the risk that earnings and prospects of these companies are more volatile than larger companies. Smaller-sized companies may experience higher failure rates than larger companies and normally have lower trading volume than larger companies. These factors may affect the value of your investment.

\*The Advisor has contractually agreed to waive fees and/or reimburse expenses of the Fund to the extent necessary to limit total annual fund operating expenses (excluding brokerage costs; underlying fund expenses; borrowing costs such as (a) interest and (b) dividends on securities sold short; taxes; and extraordinary expenses, such as regulatory inquiry and litigation expenses) at 1.38%, 2.13% and 1.13% for Class A shares, Class C shares and Class I shares, respectively, through October 31, 2021.
