

CSIOX

FUND OBJECTIVE

The Fund's objective is to seek total return.

INVESTMENT STRATEGY

- The Fund seeks to achieve its investment objective by primarily investing in domestic asset-backed fixed income securities, including agency and non-agency residential and commercial mortgage-backed securities; collateralized mortgage obligations; stripped mortgage-backed securities; and securities backed by automobiles, aircraft, credit card receivables, and businesses.
- Under normal market conditions, a significant portion of its assets will be invested in non-agency residential mortgage-backed securities.
- Perini Capital, the Sub-Advisor, employs a consistent and repeatable investment process that relies on bottom-up security selection through rigorous fundamental credit and prepayment analysis. Top-down capital allocation decisions are designed to optimize the portfolio's exposures to the most attractive risk/reward opportunities throughout a market cycle.
- The Fund attempts to optimize exposure by selling a security that may no longer offer compelling risk-adjusted returns compared to a new investment opportunity.
- CSIOX may invest in securities of any maturity or duration. The Fund does not limit its investments to a particular credit quality and may invest in below investment grade asset-backed securities, distressed asset backed securities and other below investment grade securities (commonly referred to as "junk") without limitation.
- The Catalyst Strategic Income Opportunities Fund is a continuously offered, non-diversified, closed-end management investment company.
- The Fund is an interval fund that offers to make quarterly repurchases of shares at the NAV.

The Catalyst Strategic Income Opportunities Fund seeks to provide investors with low correlation to traditional asset classes by investing primarily in domestic asset-backed fixed income securities.

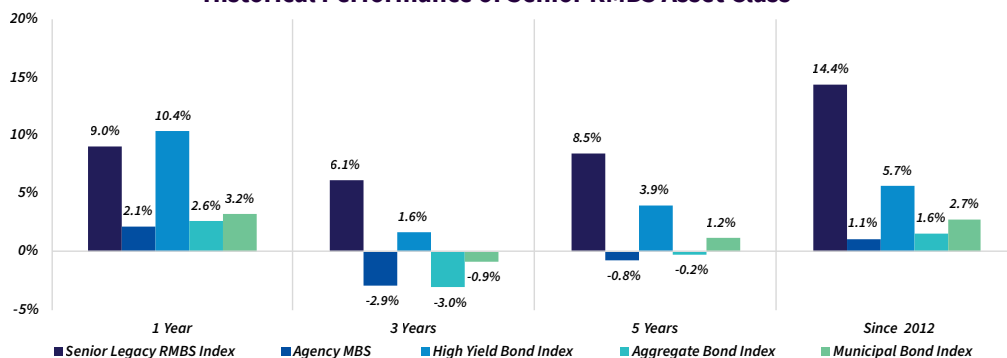

Key Reasons to Invest

Value Oriented Approach: Fundamental credit and analysis of past pre-payment trends are the basis for the team's investment decisions. The analysis is conducted via an in-depth review of collateral and structural features of securities with the goal of purchasing at a significant discount to fundamental value with the intent of providing a margin of safety.

Fund Structure Offers Potential Benefits: Given the interval fund structure, the team has the ability to take advantage of opportunities in the market without the concern of being a forced seller.

Experienced Management Team: Perini Capital's investment managers have decades of investment experience in asset selection across the credit and capital spectrum.

Historical Performance of Senior RMBS Asset Class

Annualized returns from January 3, 2012 to June 30, 2024. Source: Bloomberg LP. The Senior Legacy RMBS Index is represented by the Markit iBoxx US Non-Agency RMBS, Agency MBS is Bloomberg US MBS Index Total Return Unhedged USD, High Yield Bond Index is the Bloomberg US Corporate High Yield Total Return Index, Aggregate Bond Index is the Bloomberg US Agg Total Return, and Municipal Bond Index is the Bloomberg Municipal Bond Index Value Unhedged. Performance data quoted represents past performance; past performance does not guarantee future results. Index performance is not illustrative of fund performance. One cannot invest directly in an index.

Performance (%): Ending June 30, 2024

Annualized if greater than a year

Share Class/Benchmark	QTD	YTD	1 Year	3 Year	Since Inception*

Glossary:

Bloomberg US Aggregate Bond Index: A market capitalization-weighted index that is designed to measure the performance of the U.S. investment grade bond market with maturities of more than one year. **Effective Duration:** Provides a measure of a fund's interest rate sensitivity; the higher the value of a fund's duration, the more sensitive the fund is to shifts in interest rates.

Risk Considerations:

Past performance is not a guarantee of future results.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Catalyst Funds. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling 866-447-4228 or at www.CatalystMF.com. The prospectus should be read carefully before investing.

Investing in the Fund carries certain risks. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. Investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategies. When the Fund invests in asset-backed securities and mortgage-backed securities, the Fund is subject to the risk that, if the underlying borrowers fail to pay interest or repay principal, the assets backing these securities may not be sufficient to support payments on the securities. Interest rate risk is the risk that bond prices overall, including the prices of securities held by the Fund, will decline over short or even long periods of time due to rising interest rates. Bonds with longer maturities tend to be more sensitive to interest rates than bonds with shorter maturities. Lower-quality bonds, known as "high yield" or "junk" bonds, present greater risk than bonds of higher quality, including an increased risk of default. Credit risk is the risk that the issuer of a security will not be able to make principal and interest payments when due. These factors may affect the value of your investment.

Shares of the Fund are not listed on any securities exchange, which makes them inherently illiquid. There is no secondary market for the Fund's shares, and it is not anticipated that a secondary market will develop. As a result of the foregoing, an investment in the Fund's shares is not suitable for investors who cannot tolerate risk of loss or who require liquidity, other than liquidity provided through the Fund's repurchase policy.

Although the Fund offers to repurchase at least 5% of outstanding shares on a quarterly basis in accordance with the Fund's repurchase policy, the Fund is not required to repurchase shares at a shareholder's option nor are shares exchangeable for units, interests or shares of any security. Moreover, the Fund is not required to extend, and shareholders should not expect the Fund's Board of Trustees to authorize, repurchase offers in excess of 5% of outstanding shares.
