

HIIFX | HIICX | HIIIX

Rated 4-stars stars by Morningstar for the period ending 3/31/2024, based on 5-year risk-adjusted returns out of 575 Funds in the High Yield Bond category.

FUND OBJECTIVE

The Fund's investment objective is income with capital appreciation as a secondary objective.

INVESTMENT STRATEGY

The Fund seeks to provide a high level of current income with capital appreciation as a secondary objective by investing in a portfolio of high yield corporate bonds, convertible securities and asset-backed securities.

INVESTMENT PROCESS

The SMHCA High Yield Investment Process consists of three disciplines:

1. Credit Risk Reduction
2. Maximizing Return for the Risk
3. Reduction of Market Risk

The process is a bottom-up value type investment style with a primary focus on the balance sheet of the businesses.

1. In **Phase One** we perform an exhaustive analysis of the company's financial statements. Each security must be able to answer "yes" to the question: Are there tangible assets to cover our cost in the bonds?
2. Once a security has passed all of Phase One, we move to **Phase Two** where we look for Adequate Return for the Risk. The goal of this phase is to purchase securities that are the best relative value while avoiding overpriced securities and markets.
3. **Phase Three** is put in place to help us avoid "being the market". By keeping a focused portfolio of 20-40 securities, we believe this phase allows us to reduce the Systematic or Market Risk while still adding excess returns.

The Catalyst/SMH High Income Fund is an investment option for those seeking high current income driven by a disciplined, bottom-up approach.

Primary Goals & Key Reasons to Invest

Current Income: With investment options in non-investment grade corporate bonds, convertible securities and asset-backed securities, the portfolio is developed with the objective to provide high current income.

Focused Portfolio: The Fund uses a strict value-type discipline with a primary focus on the balance sheet of the business. The goal is to purchase securities that are the best relative value while avoiding overpriced securities and markets.

Risk Management: The investment process focuses on reducing credit and market risk while ensuring adequate return given the level of risk. Securities will not be added unless there are tangible assets to cover our cost in the bonds.

Current Income: 30-Day SEC Yield

Share Class	Subsidized	Unsubsidized
Class A	6.59%	5.80%
Class C	6.16%	5.34%
Class I	7.18%	6.35%

SEC Yield calculated according to SEC form N-1A. The 30-Day Yield represents net investment income earned by the Fund over the 30-day period ending 3/31/2024, expressed as an annual percentage rate based on the Fund's share price at the end of the 30-day period. The unsubsidized 30-day SEC Yield reflects the 30-day yield without expense reimbursements or fee waivers during the period.

Summary of Investment Process

Performance (%): Ending March 31, 2024

Annualized if greater than a year

Glossary:

Modified Duration: provides a measure of a fund's interest-rate sensitivity -- the higher value a fund's duration, the more sensitive the fund is to shifts in interest rates. **Merrill Lynch US Cash Pay High Yield Index** tracks the performance of US dollar denominated below investment grade corporate debt, currently in a coupon paying period, that is publicly issued in the US domestic market. Investors cannot directly invest in an index. Unmanaged index returns do not reflect any fees, expenses or sales charges.

Past performance is not a guarantee of future results.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Catalyst Funds. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling 866-447-4228 or at www.CatalystMF.com. The prospectus should be read carefully before investing. The Catalyst Funds are distributed by Northern Lights Distributors, LLC, member FINRA/SIPC. Catalyst Capital Advisors, LLC and SMH Capital Advisors, LLC are not affiliated with Northern Lights Distributors, LLC.

Risk Considerations:

Investing in the Fund carries certain risks. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. The Fund is non-diversified and may invest a greater percentage of its assets in a particular issue and may own fewer securities than other mutual funds. The Fund may be subject to substantial short-term changes. These factors may affect the value of your investment. The Fund invests in lower-quality, non-investment grade bonds, asset backed securities and convertible securities. Non-investment grade corporate bonds are those rated Baa or lower by Moody's or BBB or lower by S&P (also known as "junk" bonds). Asset-backed securities are securities issued by trusts and special purpose entities that are backed by pools of assets, such as automobile and credit-card receivables and home equity loans, which pass through the payments on the underlying obligations to the security holders. Convertible securities are bonds or preferred stocks which are convertible into, or exchangeable for, common stocks. Lower-quality debt securities involve greater risk of default or price changes due to changes in the credit quality of the issuer. Asset Backed securities are subject to the risk that, if the issuer fails to pay interest or repay principal, the assets backing these securities may not be sufficient to support payments on the securities.

HIIIX was also rated 3-stars by Morningstar for the 3-year period, and 1-star for the 10-year period, out of 606 Funds and 432 Funds, respectively, in the High Yield Bond category, for the period ending 3/31/2024, based on risk adjusted returns. The overall Morningstar rating for HIIIX is 2-stars out of 606 Funds in the High Yield Bond category, based on risk-adjusted returns, for the period ending 3/31/2024.

The Morningstar Rating[™] for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life sub-accounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics.
