

Catalyst Dynamic Alpha Fund

CPEAX, CPECX & CPEIX

2021 Q3

Risk Considerations

Investors should carefully consider the investment objectives, risks, charges and expenses of the Catalyst Funds. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling 866-447-4228 or at www.catalystmutualfunds.com. The prospectus should be read carefully before investing. The Catalyst Funds are distributed by Northern Lights Distributors, LLC, member FINRA/SIPC. Catalyst Capital Advisors, LLC is not affiliated with Northern Lights Distributors, LLC.

Investing in the Fund carries certain risks, The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio. The Fund is non-diversified and may invest a greater percentage of its assets in a particular issue and may own fewer securities than other mutual funds. The performance of the Fund may be subject to substantial short-term changes. To the extent the Fund invests in stocks of smaller sized companies, the Fund may be subject to additional risks, including the risk that earnings and prospects of these companies are more volatile than larger companies. Smaller sized companies may experience higher failure rates than larger companies and normally have lower trading volumes than larger companies. These factors may affect the value of your investment.

About Catalyst Funds

Intelligent Alternatives

We strive to provide innovative strategies to support financial advisors and their clients in meeting the investment challenges of an ever-changing global market environment.

From our founding in 2006, Catalyst Funds set out to be decidedly different. We understood that the market did not need another traditional family of mutual funds. At Catalyst, we endeavor to offer unique investment products to meet the needs of discerning financial advisors and their clients. We offer a broad range of distinctive funds that offer specialized strategies seeking to produce income- and equity-oriented returns while limiting risk and volatility. We offer these exclusive strategies through a team of in-house portfolio managers and boutique institutional investment management partners.

About Cookson Peirce (Sub-Advisor)

Firm

- Founded in 1984
- Independent, 100% employee-owned Registered Investment Adviser
- Boutique, equity specialist manager
- Investment Committee members average 20 years experience

Style

- Time-tested mathematical investment process
- Strict buy and sell disciplines
- Focused on industry and stock selection

Firm Emphasis¹

- Capital asset appreciation
- Personal integrity and exceptional service

¹The objective of the fund is long-term capital appreciation.

Investment Philosophy

A Time-Tested Approach to Navigating the Equity Markets

- Fear, greed, and impatience cause confusion and indecision, undermining long-term returns.
- A disciplined, quantitative investing method eliminates emotion and removes guesswork.
- Seeks to bring consistent results to the portfolio.
- We specialize in a quantitative, replicable method refined over 25 years of successful investing.

The Catalyst Dynamic Alpha Fund

- Managed utilizing the proven Cookson Peirce approach.
- Invests in small, mid, or large cap companies to take advantage of current and expected strength.
- Not constrained by artificial style (“growth or “value”) restrictions.
- Disciplined buy and sell criteria.
- Concentrated, focused, adaptable.

The result: A portfolio with the goal to excel over the long-term.

There is no guarantee that any investment strategy will achieve its objectives, generate profits or avoid losses.

Investment Process – Overview

Disciplined Buy Process

Our team of experienced equity analysts provides focused, quantitative research updated each week. We add value to investment returns by selecting the strongest equity investments in select industry groups that we believe will continue to outperform the market based on current trends.

Disciplined Sell Process

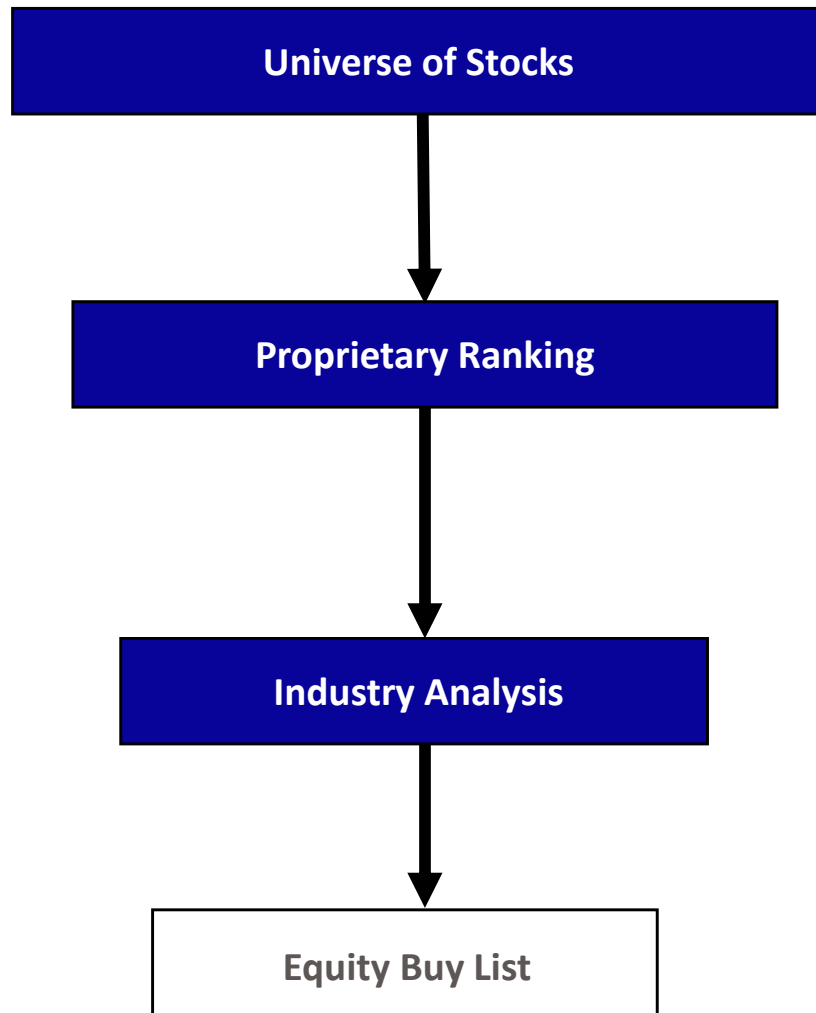

Once purchased, we closely monitor every equity investment in all portfolios in an attempt to control risk. A deterioration in price relative to the universe of investments will force the sale of an individual security. A predetermined measurement for sale eliminates emotion from this process and seeks to reduce overall portfolio risk.

Investment Objective

To deliver capital appreciation over the long-term.

There is no assurance that the Fund will achieve its investment objective.

Investment Process – Details

We follow over 1000 stocks. These comprise our Universe of Stocks.

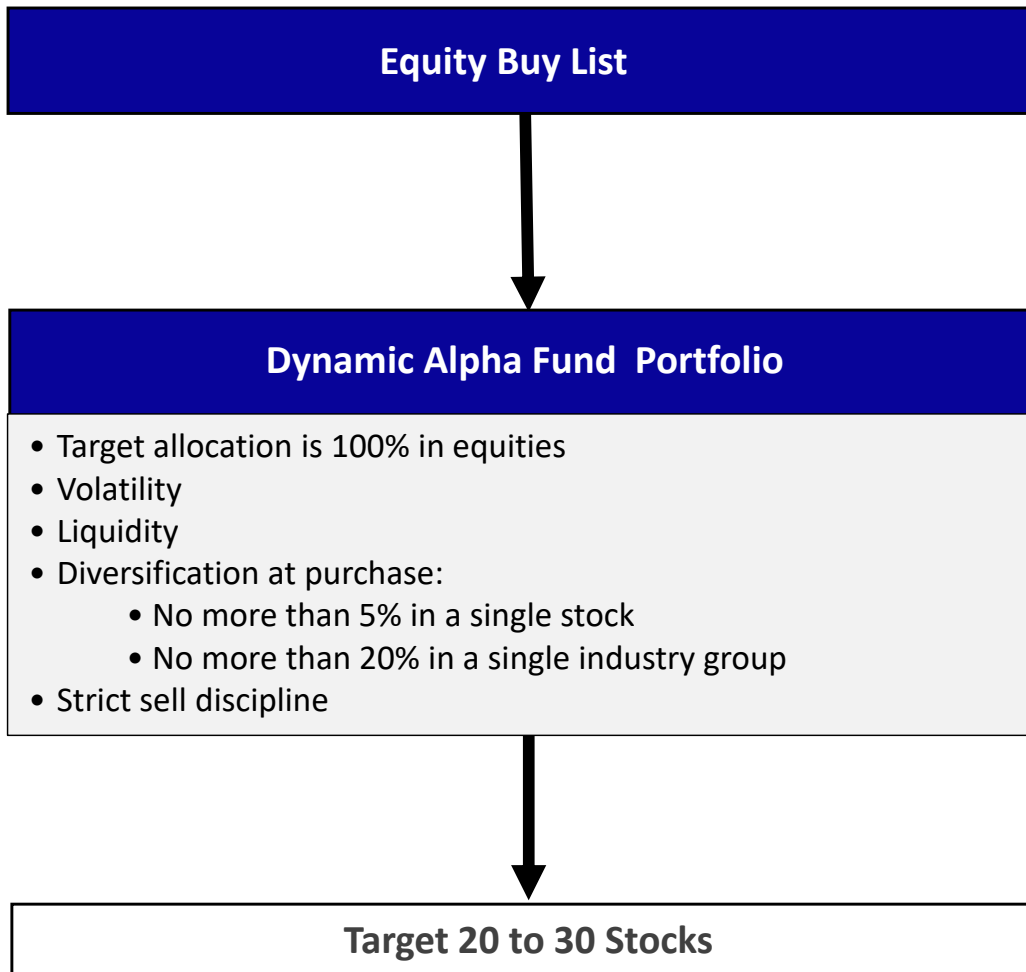

Each week, all the stocks in our universe are ranked using our proprietary investment management system.

The ranking of the individual stocks are then utilized to rank our industry groups. These rankings, along with the individual stock rankings determine which stocks will be purchased.

After exhaustive qualitative and quantitative analysis, we publish our equity buy list. Normally 100 stocks will qualify for purchase.

There is no assurance that the Fund will achieve its investment objective.

Investment Process – Construction

After equities are identified for purchase, the portfolio is reviewed and compared to the all-cap equity model.

Once the risk parameters (volatility, liquidity and diversification) are reviewed, stocks are selected from the buy list to fill the portfolio or replace stocks being sold (usually a total of 20 positions). Our ongoing sell discipline is then applied to defend against the deterioration of principal.

There is no assurance that the Fund will achieve its investment objective.
